Before reviewing results: (Complete this section as soon as possible after completing the CDT.)

1. The Mathematics CDT you just took included four diagnostic categories. For each of the diagnostic categories, think about how you did.

   • Which types of questions did you feel most prepared to answer in each diagnostic category?
   • Were there topics that you did not know well or were not familiar with?
   • In the spaces on the next page, describe both your strengths and your areas that may need improvement for each diagnostic category. You may want to use your Skills Pamphlet for Mathematics to help you pinpoint your strengths and/or areas of need.
<table>
<thead>
<tr>
<th>Diagnostic Category</th>
<th>My Strengths</th>
<th>My Areas that Need Improvement</th>
</tr>
</thead>
<tbody>
<tr>
<td>Numbers and Operations</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Algebraic Concepts</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Geometry</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Measurement, Data, and Probability</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
Look at the results in your Individual Map to complete the section below.

2. Reviewing Results: (Place an X in each row to show the location of each of your scores (overall and each diagnostic category). Then answer the questions below.)

<table>
<thead>
<tr>
<th>Score</th>
<th>Red</th>
<th>Green</th>
<th>Blue</th>
</tr>
</thead>
<tbody>
<tr>
<td>Overall Score</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Numbers and Operations</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Algebraic Concepts</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Geometry</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Measurement, Data, and Probability</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Did you expect your overall score to be higher or lower? Are your results consistent with your learning so far in this subject? Remember, if this is the beginning of the school year, it is okay for you to be in the Red range right now.

____________________________________________________________________________________

Which diagnostic category has the highest score? ________________________________
Which diagnostic category has the lowest score? ________________________________
3. **Setting Goals:** (Use the space below to set one or more goals for your learning before the next administration of the CDT. For each goal, consider a specific diagnostic category, and think about what you and your teacher can do to help you reach your goal. You may want to use your Skills Pamphlet for Mathematics to help you set your goals.)

*Goal 1:*
Which diagnostic category would you like to work on improving before the next time you take the CDT?

____________________________________________________________________________________

What will you do to improve in that category? ____________________________________________

____________________________________________________________________________________

____________________________________________________________________________________

What additional help do you need to meet your goal? _________________________________

____________________________________________________________________________________
Goal 2:

Which diagnostic category would you like to work on improving before the next time you take the CDT?

____________________________________________________________________________________

What will you do to improve in that category?

____________________________________________________________________________________

____________________________________________________________________________________

What additional help do you need to meet your goal?

____________________________________________________________________________________
Goal 3:

Which diagnostic category would you like to work on improving before the next time you take the CDT?

_______________________________________________________________________________

What will you do to improve in that category?

_______________________________________________________________________________

_______________________________________________________________________________

_______________________________________________________________________________

What additional help do you need to meet your goal?

_______________________________________________________________________________
