

Unit Plan Definitions and Template

1. **Unit Code:** an alpha numeric expression (Ex. M-1) used to "tag" the unit (The first letter will reflect the subject area: M=Math; S=Science; L=Literacy; W=Writing; SS=Social Studies. (The number will reflect the order of the lesson plan in the unit.)
2. **Subject:** a course or area of study composed of units
3. **Grade level/Course:** a level of student academic development or course of study
4. **Title:** name of the unit
5. **Objective(s):** the goal(s) of the unit and a subsequent measure of the student's performance
6. **Essential Question(s):** Question(s) specifically linked to Big Ideas that frame student inquiry and promote creative and critical thinking.
7. **Alignments:** strands of information related to the connection between standard, anchor, anchor descriptor, and eligible content
 - Standards*
 - Eligible Content*
 - Early Learning Standards*

(*The above alignment will allow for the following alignments to also be created: Assessment Anchor, Big idea, Concept, Competencies)
8. **Big Idea(s):** an element of the curriculum framework representing an enduring understanding
9. **Concepts:** what students know
10. **Competencies:** what students can do
11. **End of Unit Assessment:** A short assessment using various item types designed to assess the achievement of key concepts and competencies presented in the Unit and Lesson Plans.
12. **Related Materials and Resources:** other materials, links, etc., which support the lesson (to be completed by the field as vetted through QR)
