

## Introduction

In Grade 6, instructional time should focus on four critical areas: (1) connecting ratio and rate to whole number multiplication and division and using concepts of ratio and rate to solve problems; (2) completing understanding of division of fractions and extending the notion of number to the system of rational numbers, which includes negative numbers; (3) writing, interpreting, and using expressions and equations; and (4) developing understanding of statistical thinking.

Setting the Stage

	ASSIGNMENT (CALL TO ACTION)	RESOURCE/ URL
<p>Welcome to the Grade 6 Mathematics Pennsylvania Learns iTunes U course. We are setting the stage for this course by providing you with background information about Pennsylvania Mathematics Core Standards and the Standards for Mathematical Practice.</p>		
<p>Pennsylvania Core Standards: The State Board approved the final Chapter 4 regulations on September 12, 2013. The Independent Regulatory Review Commission (IRRC) approved the final regulation on November 21, 2013. With publication of Chapter 4 in the Pennsylvania Bulletin, the new regulations took effect on March 1, 2014.</p> <p>As part of the new regulations, Pennsylvania’s Core Standards offer a set of rigorous, high-quality academic expectations in Mathematics that all students should master by the end of each grade level. The PA Core Standards are robust and relevant to the real world and reflect the knowledge and skills our young people need to succeed in life after high school, in both post-secondary education and a globally competitive workforce.</p>	<p><b>REVIEW</b> the “Teacher Resources” and “Student Resources” section of the PA Core Implementation section of the SAS Portal.</p>	<p><a href="http://www.pdesas.org/Standard/PACore">http://www.pdesas.org/Standard/PACore</a></p>

Standards for Mathematical Practice and Content

TOPIC	MESSAGE	ASSIGNMENT (CALL TO ACTION)	CONTENT DIRECTIONS	RESOURCE/ URL
About the Standards for Mathematical Practice and Content	<p>The Standards for Mathematical Practice describe varieties of expertise that mathematics educators at all levels should seek to develop in their students. These practices rest on important “processes and proficiencies” with longstanding importance in mathematics education. The first of these are the NCTM process standards of problem solving, reasoning and proof, communication, representation, and connections. The second are the strands of mathematical proficiency specified in the National Research Council’s report <i>Adding It Up</i>: This report explores how students in pre-K through 8th grade learn mathematics and highlights the importance of the inclusion of the following in teaching and learning: adaptive reasoning, strategic competence, conceptual understanding (comprehension of mathematical concepts, operations and relations), procedural fluency (skill in carrying out procedures flexibly, accurately, efficiently and appropriately), and productive disposition (habitual inclination to see mathematics as sensible, useful, and worthwhile, coupled with a belief in diligence and one’s own efficacy).</p>			
Standards for Mathematical Practice	<p>The eight Standards of Mathematical Practice: 1 Make sense of problems and persevere in solving them. 2 Reason abstractly and quantitatively. 3 Construct viable arguments and critique the reasoning of others. 4 Model with mathematics. 5 Use appropriate tools strategically. 6 Attend to precision. 7 Look for and make use of structure. 8 Look for and express regularity in repeated reasoning. The Standards for Mathematical Practice describe ways in which developing student practitioners of the discipline of mathematics increasingly ought to engage with the subject matter as they grow in mathematical maturity and expertise throughout the elementary, middle and high school years.</p>			
		<p>LEARN how the standards improve teaching, make learning more engaging, create shared expectations, and cultivate lifelong learning for students.</p>	<p>NCTM and The Hunt Institute have produced a series of videos to enhance understanding of the mathematics that students need to succeed in college, life, and careers. Beginning in the primary grades, the videos address the importance of developing a solid foundation for algebra, as well as laying the groundwork for calculus and other postsecondary mathematics coursework. The series also covers the Standards for Mathematical Practice elaborated in the PA Core Standards for Mathematics and examines why developing conceptual understanding requires a different approach to teaching and learning.</p>	<p><a href="https://itunes.apple.com/us/itunes-u/hunt-institute-ccss-series/id461816983?mt=10">https:// itunes.apple.co m/us/itunes-u/ hunt-institute- ccss-series/ id461816983? mt=10</a></p>

Standards for Mathematical Content	<p>The Standards for Mathematical Content are a balanced combination of procedure and understanding. Expectations that begin with the word “understand” are often especially good opportunities to connect the practices to the content. Students who lack understanding of a topic may rely on procedures too heavily. Without a flexible base from which to work, they may be less likely to consider analogous problems, represent problems coherently, justify conclusions, apply the mathematics to practical situations, use technology mindfully to work with the mathematics, explain the mathematics accurately to other students, step back for an overview, or deviate from a known procedure to find a shortcut. In short, a lack of understanding effectively prevents a student from engaging in the mathematical practices. The content standards which set an expectation of understanding are potential “points of intersection” between the Standards for Mathematical Content and the Standards for Mathematical Practice. These points of intersection are intended to be weighted toward central and generative concepts in the school mathematics curriculum that most merit the time, resources, innovative energies, and focus necessary to qualitatively improve the curriculum, instruction, assessment, professional development, and student achievement in mathematics.</p>			
		DEEPEN your understanding of the PA Core Standards shifts in mathematics.	This course is intended to deepen your understanding of the PA Core Standards shifts in mathematics. It is designed to stimulate thinking around designing and delivering instruction matched to the Standards and how this may change your classroom practice. The content describes how the Standards differ from previous Standards and thoroughly explains the Shifts of focus, coherence and rigor.	<a href="https://itunes.apple.com/us/course/ccss-for-teachers-math-shifts/id679843407">https://itunes.apple.com/us/course/ccss-for-teachers-math-shifts/id679843407</a>

Topic and Title	Message	Assignment/Call To Action	Content Directions	Content URL or Location
<b>Module 1: Ratios and Unit Rates</b>	In Module 1, students build on their prior work in measurement and in multiplication and division as they study the concepts and language of ratios and unit rates. They use proportional reasoning to solve problems. In particular, students solve ratio and rate using tape diagrams, tables of equivalent ratios, double number line diagrams, and equations. Students will be introduced to percentages as a rate per 100.			
	<b>Module 1 Focus Standard(s):</b> <a href="#">CC.2.1.6.D.1</a> Understand ratio concepts and use ratio reasoning to solve problems.			
	<b>Module 1 Objective(s):</b> 1. Use ratio language and notation to describe a ratio relationship between two quantities. 2. Find the unit rate $a/b$ associated with a ratio $a:b$ (with $b \neq 0$ ) and use rate language in the context of a ratio relationship. 3. Construct tables of equivalent ratios relating quantities with whole-number measurements, find missing values in the tables, and/or plot the pairs of values on the coordinate plane. Use tables to compare ratios. 4. Solve unit rate problems including those involving unit pricing and constant speed. 5. Find a percent of a quantity as a rate per 100 (e.g., 30% of a quantity means $30/100$ times the quantity); solve problems involving finding the whole, given a part and the percent.			
		ACCESS Module 1 Mathematics Curriculum Framework		<a href="http://www.pdesas.org/CMap/CMap/DefaultCmap/16771">http://www.pdesas.org/CMap/CMap/DefaultCmap/16771</a>
<b>Ratio Language and Notation</b>	In this lesson, you will use ratio language and notation to describe a ratio relationship between two quantities.	LEARN about all types of ratios using a diagram.		<a href="https://learnzillion.com/lessons/601-identify-all-types-of-ratios-using-a-diagram">https://learnzillion.com/lessons/601-identify-all-types-of-ratios-using-a-diagram</a>
		<b>WRITE</b> examples of ratios given in the previous video, and <b>CREATE</b> two pictorial examples of your own, using the Explain Everything app.		<a href="https://itunes.apple.com/us/app/explain-everything/id431493086?mt=8">https://itunes.apple.com/us/app/explain-everything/id431493086?mt=8</a>
		LEARN about the difference between a ratio and a fraction.		<a href="https://learnzillion.com/lessons/602-understand-the-difference-between-fractions-and-ratios">https://learnzillion.com/lessons/602-understand-the-difference-between-fractions-and-ratios</a>
		<b>USE</b> the Explain Everything App to explain in your own words the difference between a fraction and a ratio.		<a href="https://itunes.apple.com/us/app/explain-everything/id431493086?mt=8">https://itunes.apple.com/us/app/explain-everything/id431493086?mt=8</a>
		<b>PRATICE</b> identifying ratios.		<a href="https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-ratios-prop-topic/cc-6th-ratios-intro/e/representing-ratios">https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-ratios-prop-topic/cc-6th-ratios-intro/e/representing-ratios</a>
		<b>PRACTICE</b> identifying the correct ratio or fraction. <b>DEMONSTRATE</b> and <b>EXPLAIN</b> your thinking within the Explain Everything app.		<a href="https://www.illustrativemathematics.org/content-standards/6/RP/A/1/tasks/912">https://www.illustrativemathematics.org/content-standards/6/RP/A/1/tasks/912</a>
				<a href="https://itunes.apple.com/us/app/explain-everything/id431493086?mt=8">https://itunes.apple.com/us/app/explain-everything/id431493086?mt=8</a>

Tables of Equivalent Ratios	In this lesson, you will construct tables of equivalent ratios relating quantities with whole-number measurements, find missing values in the tables, and/or plot the pairs of values on the coordinate plane. You will use tables to compare ratios.	<b>LEARN</b> how to expand a diagram to create equivalent ratios.		<a href="https://learnzillion.com/lesson_plans/11152-5-understand-equivalent-ratios-c?card=92980">https://learnzillion.com/lesson_plans/11152-5-understand-equivalent-ratios-c?card=92980</a>
		<b>LEARN</b> how to use a table to create equivalent ratios.		<a href="https://learnzillion.com/lessons/587-solve-ratio-problems-using-tables-and-multiplication">https://learnzillion.com/lessons/587-solve-ratio-problems-using-tables-and-multiplication</a>
		<b>PRACTICE</b> finding equivalent ratios.		<a href="https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-ratios-prop-topic/cc-6th-ratios-intro/e/solving-ratio-problems-with-tables">https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-ratios-prop-topic/cc-6th-ratios-intro/e/solving-ratio-problems-with-tables</a>
		<b>LEARN</b> how to use a tape diagram to create equivalent ratios.		<a href="https://www.youtube.com/watch?v=UqWRaat5kIA">https://www.youtube.com/watch?v=UqWRaat5kIA</a>
		<b>PRACTICE</b> with equivalent ratios by accessing the Thinking Blocks: Ratio and Proportion Practice app. Try the missing quantity portion of the app (green blocks).		<a href="https://itunes.apple.com/us/app/thinking-blocks-ratios/id670448325?mt=8">https://itunes.apple.com/us/app/thinking-blocks-ratios/id670448325?mt=8</a>
		<b>PRACTICE</b> using equivalent ratios to solve word problems.		<a href="https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-ratios-prop-topic/cc-6th-ratio-word-problems/e/ratio_word_problems">https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-ratios-prop-topic/cc-6th-ratio-word-problems/e/ratio_word_problems</a>
		<b>PRACTICE</b> using equivalent rates to solve a rate problem and graph the coordinates in the table.	Use the Educreations app to plot the points by choosing the coordinate plane option. Use a separate page to create the table and provide explanation.	<a href="https://www.illustrativemathematics.org/content-standards/6/RP/A/3/tasks/711">https://www.illustrativemathematics.org/content-standards/6/RP/A/3/tasks/711</a>
				<a href="https://itunes.apple.com/us/app/educreations-interactive-whiteboard/id478617061?mt=8">https://itunes.apple.com/us/app/educreations-interactive-whiteboard/id478617061?mt=8</a>
Finding Unit Rate	In this lesson, you will find the unit rate $a/b$ associated with a ratio $a:b$ (with $b \neq 0$ ) and use rate language in the context of a ratio relationship.	<b>LEARN</b> about unit rates.		<a href="https://learnzillion.com/lessons/841-create-unit-rate-using-tape-diagram">https://learnzillion.com/lessons/841-create-unit-rate-using-tape-diagram</a>
		<b>PRACTICE</b> with unit rates and equivalent rates.		<a href="http://www.ixl.com/math/grade-6/unit-rates-and-equivalent-rates">http://www.ixl.com/math/grade-6/unit-rates-and-equivalent-rates</a>
		<b>PRACTICE</b> finding unit rates. <b>SOLVE</b> the problems and demonstrate your thinking using the Explain Everything app.		<a href="https://www.illustrativemathematics.org/content-standards/6/RP/A/2/tasks/1611">https://www.illustrativemathematics.org/content-standards/6/RP/A/2/tasks/1611</a>
				<a href="https://itunes.apple.com/us/app/explain-everything/id431493086?mt=8">https://itunes.apple.com/us/app/explain-everything/id431493086?mt=8</a>
		<b>PRACTICE</b> finding unit rates. Solve the problems and demonstrate your thinking using the Explain Everything app.		<a href="https://www.illustrativemathematics.org/content-standards/6/RP/A/2/tasks/1975">https://www.illustrativemathematics.org/content-standards/6/RP/A/2/tasks/1975</a>

				<a href="https://itunes.apple.com/us/app/explain-everything/id431493086?mt=8">https://itunes.apple.com/us/app/explain-everything/id431493086?mt=8</a>	
Using Unit Rate to Solve Word Problems	In this lesson, you will solve unit rate problems including those involving unit pricing and constant speed.	<b>PRACTICE</b> solving problems involving rate.		<a href="https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-ratios-prop-topic/cc-6th-rates/e/rate_problems_0.5">https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-ratios-prop-topic/cc-6th-rates/e/rate_problems_0.5</a>	
		<b>SOLVE</b> the problems involving rate and <b>DEMONSTRATE</b> your thinking using the Explain Everything app.		<a href="https://www.illustrativemathematics.org/content-standards/6/RP/A/3/tasks/1641">https://www.illustrativemathematics.org/content-standards/6/RP/A/3/tasks/1641</a>	
				<a href="https://itunes.apple.com/us/app/explain-everything/id431493086?mt=8">https://itunes.apple.com/us/app/explain-everything/id431493086?mt=8</a>	
		LEARN how to use the thinking block app to solve ratio problems involving unit rate.		<a href="https://www.youtube.com/watch?v=GBVy87kLjdA">https://www.youtube.com/watch?v=GBVy87kLjdA</a>	
		<b>APPLY</b> your knowledge to solve more challenging rate problems.	Choose the yellow bars.	<a href="https://itunes.apple.com/us/app/thinking-blocks-ratios/id670448325?mt=8">https://itunes.apple.com/us/app/thinking-blocks-ratios/id670448325?mt=8</a>	
Percents	In this lesson, you will find a percent of a quantity as a rate per 100 and solve problems involving finding the whole, given a part and the percent.	<b>LEARN</b> how to define percents by using ratios.		<a href="https://learnzillion.com/lessons/593-define-percents-as-ratios">https://learnzillion.com/lessons/593-define-percents-as-ratios</a>	
		<b>LEARN</b> how to visualize percents on a hundred grid.		<a href="https://learnzillion.com/lessons/594-visualize-percents-using-10-x-10-grids">https://learnzillion.com/lessons/594-visualize-percents-using-10-x-10-grids</a>	
		<b>MODEL</b> a percent, decimal, and fraction with a hundred grid.	Using a hundred grid, shade 32 blocks. Represent the shaded region with a fraction, decimal, and percent. Take a screenshot of the final answers.		<a href="https://itunes.apple.com/us/app/number-frames-by-math-learning/id873198123?mt=8">https://itunes.apple.com/us/app/number-frames-by-math-learning/id873198123?mt=8</a>
		<b>PRACTICE</b> finding the percent.			<a href="https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-ratios-prop-topic/cc-6th-percent-problems/e/finding_percents">https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-ratios-prop-topic/cc-6th-percent-problems/e/finding_percents</a>
		<b>LEARN</b> how to solve percent problems using ratio tables.			<a href="https://learnzillion.com/lessons/598-solve-percent-problems-using-a-ratio-table">https://learnzillion.com/lessons/598-solve-percent-problems-using-a-ratio-table</a>
		<b>PRACTICE</b> solving percent word problems.			<a href="https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-ratios-prop-topic/cc-6th-percent-word-problems/e/percentage_word_problems_1">https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-ratios-prop-topic/cc-6th-percent-word-problems/e/percentage_word_problems_1</a>

		<b>SOLVE</b> a problem involving percents. <b>DEMONSTRATE</b> and <b>EXPLAIN</b> your thinking within the Explain Everything app.	<a href="https://www.illustrativemathematics.org/content-standards/6/RP/A/3/tasks/1982">https://www.illustrativemathematics.org/content-standards/6/RP/A/3/tasks/1982</a>

<b>Module 2: Arithmetic Operations</b>	Students expand their understanding of the number system and build their fluency in arithmetic operations in Module 2. Students learned in Grade 5 to divide whole numbers by unit fractions and unit fractions by whole numbers. Now, they apply and extend their understanding of multiplication and division to divide fractions by fractions. The meaning of this operation is connected to real-world problems as students are asked to create and solve fraction division word problems. Students continue (from fifth grade) to build fluency with adding, subtracting, multiplying, and dividing multi-digit decimal numbers using the standard algorithms. Students also extend the concepts of factors and multiples to include Greatest Common Factor and Least Common Multiple.				
	<b>Focus Standard(s):</b> <a href="#">CC.2.1.6.E.1</a> Apply and extend previous understandings of multiplication and division to divide fractions by fractions. <a href="#">CC.2.1.6.E.2</a> Identify and choose appropriate processes to compute fluently with multi-digit numbers. <a href="#">CC.2.1.6.E.3</a> Develop and/or apply number theory concepts to find common factors and multiples.				
	<b>Module 2 Objective(s):</b> 1. Interpret and compute quotients of fractions (including mixed numbers), and solve word problems involving division of fractions by fractions. 2. Solve problems involving operations (+, -, ×, ÷) with whole numbers, decimals (through thousandths), straight computation, or word problems. 3. Find the greatest common factor of two whole numbers less than or equal to 100 and the least common multiple of two whole numbers less than or equal to 12. 4. Apply the distributive property to express a sum of two whole numbers, 1 through 100, with a common factor as a multiple of a sum of two whole numbers with no common factor.				
		<b>ACCESS</b> Module 2 Mathematics Curriculum Framework		<a href="http://www.pdesas.org/CMap/CMap/DefaultCmap/17127">http://www.pdesas.org/CMap/CMap/DefaultCmap/17127</a>	
<b>Fractions</b>	In this lesson, you will interpret and compute quotients of fractions (including mixed numbers), and solve word problems involving multiplication and division of fractions.	<b>LEARN</b> how to divide fractions by fractions using models.		<a href="https://www.brainiaccamp.com/lessons/dividing-fractions/lesson.php">https://www.brainiaccamp.com/lessons/dividing-fractions/lesson.php</a>	
		<b>PRACTICE</b> dividing fractions and mixed numbers using a number line model.		<a href="http://www.visualfractions.com/DivideEasy/">http://www.visualfractions.com/DivideEasy/</a>	
		<b>SOLVE</b> word problems by dividing fractions and mixed numbers.		<a href="https://www.brainiaccamp.com/lessons/dividing-fractions/problems.php">https://www.brainiaccamp.com/lessons/dividing-fractions/problems.php</a>	
		<b>SOLVE</b> word problems by dividing fractions and mixed numbers.	Use the number line app to demonstrate your solution. Demonstrate and explain your solution within the Explain Everything app.	<a href="https://www.illustrativemathematics.org/content-standards/6/NS/A/1/tasks/50">https://www.illustrativemathematics.org/content-standards/6/NS/A/1/tasks/50</a>	Baking cookies task

<b>Module 3: Rational Numbers</b>	Major themes of Module 3 are to understand rational numbers as points on a number line and to extend previous understandings of numbers to the system of rational numbers, which now include negative numbers. Students extend coordinate axes to represent points in the plane with negative number coordinates and, as part of doing so, see that negative numbers can represent quantities in real-world contexts. They use the number line to order numbers and to understand the absolute value of a number. They begin to solve real-world and mathematical problems by graphing points in all four quadrants, a concept that continues throughout to be used into high school and beyond.				
	<b>Module 3 Focus Standards:</b> <a href="#">CC.2.1.6.E.4</a> Apply and extend previous understandings of numbers to the system of rational numbers.				
	<b>Module 3: Objectives:</b> 1. Represent quantities in real-world contexts using positive and negative numbers, explaining the meaning of 0 in each situation. 2. Determine the opposite of a number and recognize that the opposite of the opposite of a number is the number itself. 3. Locate and plot integers and other rational numbers on a horizontal or vertical number line; locate and plot pairs of integers and other rational numbers on a coordinate plane. 4. Write, interpret, and explain statements of order for rational numbers in real-world contexts. Example: Write $-3^{\circ}\text{C} > -7^{\circ}\text{C}$ to express the fact that $-3^{\circ}\text{C}$ is warmer than $-7^{\circ}\text{C}$ . 5. Interpret the absolute value of a rational number as its distance from 0 on the number line and as a magnitude for a positive or negative quantity in a real-world situation. 6. Solve real-world and mathematical problems by plotting points in all four quadrants of the coordinate plane. Include use of coordinates and absolute value to find distances between points with the same first coordinate or the same second coordinate.				
		<b>ACCESS</b> Module 3 Mathematics Curriculum Framework		<a href="http://www.pdesas.org/CMap/CMap/DefaultCmap/17128">http://www.pdesas.org/CMap/CMap/DefaultCmap/17128</a>	
<b>Rational Numbers</b>	In this lesson, you will represent quantities in real-world contexts using positive and negative numbers.	<b>LEARN</b> about representing quantities in the real world.		<a href="http://www.virtualnerd.com/middle-math/integers-coordinate-plane/integers-absolute-value/represent-real-world-examples">http://www.virtualnerd.com/middle-math/integers-coordinate-plane/integers-absolute-value/represent-real-world-examples</a>	
		<b>READ</b> about integers that represent different situations.		<a href="http://www.ck12.org/arithmetic/Integers-that-Represent-Different-Situations/lesson/Integers-that-Represent-Different-Situations-MSM6/">http://www.ck12.org/arithmetic/Integers-that-Represent-Different-Situations/lesson/Integers-that-Represent-Different-Situations-MSM6/</a>	
		<b>LEARN</b> about integers in the real world.		<a href="http://www.slideshare.net/bigpassy/integers-in-the-real-world">http://www.slideshare.net/bigpassy/integers-in-the-real-world</a>	
		<b>LEARN</b> about elevation.		<a href="https://www.youtube.com/watch?v=NX3mNjSfERo">https://www.youtube.com/watch?v=NX3mNjSfERo</a>	
		<b>PRACTICE</b> answering questions about integer quantities.		<a href="http://www.mathgames.com/skill/6.56-working-with-temperatures-above-and-below-zero">http://www.mathgames.com/skill/6.56-working-with-temperatures-above-and-below-zero</a>	
		<b>COMPLETE</b> the number line task and <b>EXPLAIN</b> your solution.		<a href="http://s3.amazonaws.com/illustrativemathematics/attachments/000/009/824/original/student_task_283.pdf?1462399322">http://s3.amazonaws.com/illustrativemathematics/attachments/000/009/824/original/student_task_283.pdf?1462399322</a>

<b>Module 4: Expressions and Equations</b>	With their sense of number expanded to include negative numbers, in Module 4 students begin formal study of algebraic expressions and equations. Students learn equivalent expressions by continuously relating algebraic expressions back to arithmetic and the properties of arithmetic (commutative, associative, and distributive). They write, interpret, and use expressions and equations as they reason about and solve one variable equations and inequalities and analyze quantitative relationships between two variables.				
	<b>Module 4 Focus Standards:</b> <a href="#">CC.2.2.6.B.1</a> Apply and extend previous understandings of arithmetic to algebraic expressions. <a href="#">CC.2.2.6.B.2</a> Understand the process of solving a one-variable equation or inequality and apply to real-world and mathematical problems. <a href="#">CC.2.2.6.B.3</a> Represent and analyze quantitative relationships between dependent and independent variables.				
	<b>Module 4 Objectives:</b> 1. Write and evaluate numerical expressions involving whole-number exponents. 2. Write algebraic expressions from verbal descriptions. 3. Identify parts of an expression using mathematical terms. (e.g. sum, term, product, factor, quotient, coefficient, quantity) 4. Evaluate expressions at specific values of their variables, including expressions that arise from formulas used in real-world problem 5. Apply the properties of operations to generate equivalent expressions 6. Use substitution to determine whether a given number is a specified set makes an equation or inequality true. 7. Write algebraic expressions to represent real-world or mathematical problems. 8. Solve real-world and mathematical problems by writing and solving equations of the form $x + p = q$ and $px = q$ for cases in which $p$ , $q$ , and $x$ are all non-negative rational numbers. 9. Write an inequality of the form $x > c$ or $x < c$ to represent a constraint or condition in a real-world or mathematical problem and/or represent solutions of such inequalities on number lines. 10. Write an equation to express the relationship between the dependent and independent variables. 11. Analyze the relationship between the dependent and independent variables using graphs and tables, and/or relate these to an equation.				
		<b>ACCESS</b> Module 4 Math Curriculum Framework		<a href="http://www.pdesas.org/CMap/CMap/">http://www.pdesas.org/CMap/CMap/</a>	
<b>Numerical Expressions</b>	In this lesson, you will write and evaluate numerical expressions involving whole-number exponents.	<b>LEARN</b> how to write numerical expressions involving exponents.		<a href="https://learnzillion.com/lessons/460-write-numerical-expressions-involving-whole-number-exponents">https://learnzillion.com/lessons/460-write-numerical-expressions-involving-whole-number-exponents</a>	
		<b>WRITE</b> numerical expressions with exponents.		<a href="http://www.mathgames.com/skill/6.111-write-multiplication-expressions-using-exponents">http://www.mathgames.com/skill/6.111-write-multiplication-expressions-using-exponents</a>

				<a href="https://itunes.apple.com/us/app/explain-everything-interactive/id431493086?mt=8">https://itunes.apple.com/us/app/explain-everything-interactive/id431493086?mt=8</a>	<a href="https://play.google.com/store/apps/details?id=com.explaineverything.explaineverything&amp;hl=en">https://play.google.com/store/apps/details?id=com.explaineverything.explaineverything&amp;hl=en</a>
<b>Substitution</b>	In this lesson, you will use substitution to determine whether a given number in a specified set makes an equation or inequality true.	<b>LEARN</b> how to use substitution to determine whether a given number in a specified set makes an equation true.		<a href="https://learnzillion.com/lessons/2514-understand-that-equations-have-one-solution-using-a-pan-balance">https://learnzillion.com/lessons/2514-understand-that-equations-have-one-solution-using-a-pan-balance</a>	
		<b>PRACTICE</b> substituting to determine whether a given number in a specified set makes an equation or inequality true.		<a href="https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-equations-and-inequalities/cc-6th-intro-equations/e/testing-solutions-of-equations-inequalities">https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-equations-and-inequalities/cc-6th-intro-equations/e/testing-solutions-of-equations-inequalities</a>	
<b>Algebraic Expressions in the Real World</b>	In this lesson, you will write algebraic expressions to represent real-world or mathematical problems.	<b>LEARN</b> how to write algebraic expressions to represent real-world problems.		<a href="https://learnzillion.com/lessons/2868-write-multi-step-algebraic-expressions">https://learnzillion.com/lessons/2868-write-multi-step-algebraic-expressions</a>	
		<b>PRACTICE</b> writing numerical expressions.		<a href="https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-expressions-and-variables/cc-6th-writing-expressions/e/writing-expressions-with-variables-word-problems">https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-expressions-and-variables/cc-6th-writing-expressions/e/writing-expressions-with-variables-word-problems</a>	

		<b>PRACTICE</b> writing variable expressions to represent word problems.		<a href="http://www.ixl.com/math/grade-6/write-variable-expressions-to-represent-word-problems">http://www.ixl.com/math/grade-6/write-variable-expressions-to-represent-word-problems</a>	
<b>Solving Equations</b>	In this lesson, you will solve real-world and mathematical problems by writing and solving equations of the form $x + p = q$ and $px = q$ for cases in which $p$ , $q$ , and $x$ are all non-negative rational numbers	<b>VIEW</b> examples of how an equation helped solve a real world problem.		<a href="http://www.pbslearningmedia.org/resource/v107.math.algebra.var.fndgleam/find-those-gleamers-cyberchase/en/">http://www.pbslearningmedia.org/resource/v107.math.algebra.var.fndgleam/find-those-gleamers-cyberchase/en/</a>	
		<b>LEARN</b> about how a pan balance relates to solving an equation.		<a href="https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-equations-and-inequalities/cc-6th-solving-equations/v/why-we-do-the-same-thing-to-both-sides-simple-equations">https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-equations-and-inequalities/cc-6th-solving-equations/v/why-we-do-the-same-thing-to-both-sides-simple-equations</a>	
		<b>LEARN</b> about solving equations using inverse operations.		<a href="https://learnzillion.com/lessons/1503-solve-algebraic-equations-involving-addition-and-subtraction-using-inverse-operations">https://learnzillion.com/lessons/1503-solve-algebraic-equations-involving-addition-and-subtraction-using-inverse-operations</a>	
		<b>PRACTICE</b> solving equations using inverse operations.		<a href="https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-equations-and-inequalities/cc-6th-one-step-add-sub-equations/e/one_step_equations">https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-equations-and-inequalities/cc-6th-one-step-add-sub-equations/e/one_step_equations</a>	
		<b>LEARN</b> about solving multiplication equations using a bar model.		<a href="https://learnzillion.com/lessons/2814-write-and-solve-multiplication-equations-using-a-bar-model">https://learnzillion.com/lessons/2814-write-and-solve-multiplication-equations-using-a-bar-model</a>	
		<b>LEARN</b> about solving division equations using a bar model.		<a href="https://learnzillion.com/lessons/2815-write-and-solve-division-equations-using-a-bar-model">https://learnzillion.com/lessons/2815-write-and-solve-division-equations-using-a-bar-model</a>	
		<b>PRACTICE</b> solving multiplication and division equations using inverse operations.		<a href="https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-equations-and-inequalities/cc-6th-one-step-mult-div-equations/e/">https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-equations-and-inequalities/cc-6th-one-step-mult-div-equations/e/</a>	
		<b>SOLVE</b> a word problem involving an equation.		<a href="https://www.illustrativemathematics.org/content-standards/6/EE/B/7/">https://www.illustrativemathematics.org/content-standards/6/EE/B/7/</a>	Firefighter allocation task
				<a href="https://itunes.apple.com/us/app/explain-everything-interactive/id431493086?mt=8">https://itunes.apple.com/us/app/explain-everything-interactive/id431493086?mt=8</a>	<a href="https://play.google.com/store/apps/details?id=com.explaineverything.explaineverything&amp;hl=en">https://play.google.com/store/apps/details?id=com.explaineverything.explaineverything&amp;hl=en</a>
		<b>SOLVE</b> a word problem involving an equation.		<a href="https://www.illustrativemathematics.org/content-standards/6/EE/B/7/tasks/1107">https://www.illustrativemathematics.org/content-standards/6/EE/B/7/tasks/1107</a>	Morning walk task
				<a href="https://itunes.apple.com/us/app/explain-everything-interactive/id431493086?mt=8">https://itunes.apple.com/us/app/explain-everything-interactive/id431493086?mt=8</a>	<a href="https://play.google.com/store/apps/details?id=com.explaineverything.explaineverything&amp;hl=en">https://play.google.com/store/apps/details?id=com.explaineverything.explaineverything&amp;hl=en</a>
<b>Inequality Problem Solving</b>	In this lesson, you will write an inequality of the form $x > c$ or $x < c$ to represent a constraint or condition in a real-world or mathematical problem and/or represent solutions of such inequalities on number lines.	<b>LEARN</b> how to graph inequalities on a number line.		<a href="https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-equations-and-inequalities/cc-6th-inequalities/v/plotting-inequalities-on-a-number-line">https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-equations-and-inequalities/cc-6th-inequalities/v/plotting-inequalities-on-a-number-line</a>	
		<b>PRACTICE</b> graphing inequalities on a number line.		<a href="https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-equations-and-inequalities/cc-6th-inequalities/e/inequalities_on_a_number_line">https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-equations-and-inequalities/cc-6th-inequalities/e/inequalities_on_a_number_line</a>	
		<b>PRACTICE</b> writing an inequality to represent the shaded number line.		<a href="https://www.ixl.com/math/grade-6/inequalities-on-number-lines">https://www.ixl.com/math/grade-6/inequalities-on-number-lines</a>	
		<b>PRACTICE</b> writing inequalities to match a real world situation.		<a href="https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-equations-and-inequalities/cc-6th-inequalities/e/inequalities-in-one-variable-1">https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-equations-and-inequalities/cc-6th-inequalities/e/inequalities-in-one-variable-1</a>	
		<b>PRACTICE</b> writing and graphing inequalities to match a real world situation.		<a href="https://www.illustrativemathematics.org/content-standards/6/EE/B/8/tasks/642">https://www.illustrativemathematics.org/content-standards/6/EE/B/8/tasks/642</a>	fishing adventures 1 task

				<a href="https://itunes.apple.com/us/app/explain-everything-interactive/id431493086?mt=8">https://itunes.apple.com/us/app/explain-everything-interactive/id431493086?mt=8</a>	<a href="https://play.google.com/store/apps/details?id=com.explaineverything&amp;hl=en">https://play.google.com/store/apps/details?id=com.explaineverything&amp;hl=en</a>
		<b>PRACTICE</b> writing and graphing inequalities to match a real world situation.		<a href="https://www.illustrativemathematics.org/content-standards/6/EE/B/8/tasks/2010">https://www.illustrativemathematics.org/content-standards/6/EE/B/8/tasks/2010</a>	Height requirements task
				<a href="https://itunes.apple.com/us/app/explain-everything-interactive/id431493086?mt=8">https://itunes.apple.com/us/app/explain-everything-interactive/id431493086?mt=8</a>	<a href="https://play.google.com/store/apps/details?id=com.explaineverything&amp;hl=en">https://play.google.com/store/apps/details?id=com.explaineverything&amp;hl=en</a>
<b>Dependent and Independent Variables</b>	In this lesson, you will analyze the relationship between the dependent and independent variables using graphs and tables, and/or relate these to an equation.	<b>WATCH</b> a fun example of the relationship between dependent and independent variables.		<a href="http://www.pbslearningmedia.org/resource/vt07.math.algebra.var.frog-hops-part-2/">http://www.pbslearningmedia.org/resource/vt07.math.algebra.var.frog-hops-part-2/</a>	
		<b>LEARN</b> about independent and dependent variables, tables, graphs, and equations related to a common real world situations through watching a series of videos.		<a href="https://learnzillion.com/lesson_plans/6384-identify-independent-and-dependent-variables">https://learnzillion.com/lesson_plans/6384-identify-independent-and-dependent-variables</a>	
				<a href="https://learnzillion.com/lesson_plans/6989-relate-independent-and-dependent-variables-using-a-function-table">https://learnzillion.com/lesson_plans/6989-relate-independent-and-dependent-variables-using-a-function-table</a>	
		<b>PRACTICE</b> analyzing the relationship between the dependent and independent variables using graphs and tables, and/or relate these to an equation.		<a href="https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-equations-and-inequalities/cc-6th-dependent-independent/e/dependent-and-independent-variables">https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-equations-and-inequalities/cc-6th-dependent-independent/e/dependent-and-independent-variables</a>	
		<b>PRACTICE</b> analyzing the relationship between the dependent and independent variables using graphs and tables, and/or relate these to an equation.		<a href="https://www.illustrativemathematics.org/content-standards/6/EE/C/9/tasks/806">https://www.illustrativemathematics.org/content-standards/6/EE/C/9/tasks/806</a>	chocolate bar sales task

Topic and Title	Message	Assignment/Call To Action	Content Directions	Content URL or Location	Alternative to IOS or Notes
<b>Module 5: Area and Volume</b>	Module 5 is an opportunity to practice the material learned in Module 4 in the context of geometry; students apply their newly acquired capabilities with expressions and equations to solve for unknowns in area, surface area, and volume problems. They find the area of triangles and other two-dimensional figures and use the formulas to find the volumes of right rectangular prisms with fractional edge lengths. Students use negative numbers in coordinates as they draw lines and polygons in the coordinate plane. They also find the lengths of sides of figures, joining points with the same first coordinate or the same second coordinate and apply these techniques to solve real-world and mathematical problems.				
	<p><b>Focus Standards:</b>  <a href="#">CC.2.3.6.A.1</a> Apply appropriate tools to solve real-world and mathematical problems involving area, surface area, and volume.</p> <p><b>Module 5 Objectives:</b></p> <ol style="list-style-type: none"> <li>Determine the area of triangles and special quadrilaterals (i.e., square, rectangle, parallelogram, rhombus, and trapezoids.)</li> <li>Determine the area of irregular or compound polygons.</li> <li>Determine the volume of right rectangular prisms with fractional edge lengths.</li> <li>Given coordinates for the vertices of a polygon in the plane, use the coordinates to find side lengths and area of the polygon (limited to triangles and special quadrilaterals).</li> <li>Represent three-dimensional figures using nets made up of rectangles and triangles.</li> <li>Determine the surface area of triangular and rectangular prisms (including cubes).</li> </ol>				
		<b>ACCESS</b> Module 5 Math Curriculum Framework		<a href="http://www.pdesas.org/CMap/CMap/DefaultCmap/17130">http://www.pdesas.org/CMap/CMap/DefaultCmap/17130</a>	
<b>Area of Triangles and Quadrilaterals</b>	In this lesson, you will determine the area of triangles and special quadrilaterals (i.e., square, rectangle, parallelogram, rhombus, and trapezoid) formulas will be provided.	<b>LEARN</b> how to find the area of a parallelogram.	Complete the entire lesson.	<a href="https://learnzillion.com/lesson_plans/3057-6-develop-and-use-the-area-formulas-for-parallelograms-and-trapezoids-fp">https://learnzillion.com/lesson_plans/3057-6-develop-and-use-the-area-formulas-for-parallelograms-and-trapezoids-fp</a>	
		<b>PRACTICE</b> finding the area of a parallelogram.		<a href="https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-geometry-topic/cc-6th-area/e/area_of_parallelograms">https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-geometry-topic/cc-6th-area/e/area_of_parallelograms</a>	
		<b>CALCULATE</b> the area of each triangle using a Geoboard. Answer the questions in the margin of the board and take a screenshot of your final answers.		<a href="https://www.illustrativemathematics.org/content-standards/6/G/A/1/tasks/509">https://www.illustrativemathematics.org/content-standards/6/G/A/1/tasks/509</a>	Same base and height variation 1 task
				<a href="https://itunes.apple.com/us/app/geoboard-by-math-learning/id519896952?mt=8">https://itunes.apple.com/us/app/geoboard-by-math-learning/id519896952?mt=8</a>	<a href="https://www.mathlearningcenter.org/web-apps/geoboard/">https://www.mathlearningcenter.org/web-apps/geoboard/</a>
		<b>READ</b> about and <b>SOLVE</b> for areas and perimeters of triangles and quadrilaterals.		<a href="http://www.algebralab.org/lessons/lesson.aspx?file=Geometry_AreaPerimeterTrianglesQuadrilaterals.xml">http://www.algebralab.org/lessons/lesson.aspx?file=Geometry_AreaPerimeterTrianglesQuadrilaterals.xml</a>	
		<b>PRACTICE</b> finding the area of triangles.		<a href="http://www.ixl.com/math/grade-6/area">http://www.ixl.com/math/grade-6/area</a>	
		<b>PRACTICE</b> finding the area and perimeter of polygons.		<a href="http://wilson.coe.uga.edu/EMT668/EMT668_Folders.F97/Cowart/lesson1/lesson%231.html">http://wilson.coe.uga.edu/EMT668/EMT668_Folders.F97/Cowart/lesson1/lesson%231.html</a>	
				<a href="https://itunes.apple.com/us/app/explain-everything-interactive/id431493086?mt=8">https://itunes.apple.com/us/app/explain-everything-interactive/id431493086?mt=8</a>	<a href="https://play.google.com/store/apps/details?id=com.explaineverything.explaineverything&amp;hl=en">https://play.google.com/store/apps/details?id=com.explaineverything.explaineverything&amp;hl=en</a>

<b>Area of Polygons</b>	In this lesson, you will determine the area of irregular or compound polygons.	<b>LEARN</b> how to find the area of irregular polygons.		<a href="https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-geometry-topic/cc-6th-area/v/area-breaking-up-shape">https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-geometry-topic/cc-6th-area/v/area-breaking-up-shape</a>	
		<b>PRACTICE</b> finding the area of compound polygons.		<a href="http://www.mathgames.com/skill/6.106-area-of-complex-figures">http://www.mathgames.com/skill/6.106-area-of-complex-figures</a>	
		<b>PRACTICE</b> finding the area of compound polygons.		<a href="http://www.ixl.com/math/grade-6/area-of-compound-figures">http://www.ixl.com/math/grade-6/area-of-compound-figures</a>	
		<b>PRACTICE</b> calculating the area of an irregular polygon.		<a href="http://www.shodor.org/interactivate/activities/AreaExplorer/">http://www.shodor.org/interactivate/activities/AreaExplorer/</a>	
		<b>FIND the area of the</b> irregular figures. Import the task into the Explain Everything app and demonstrate your thinking for each figure.		<a href="https://www.illustrativemathematics.org/content-standards/6/G/A/1/tasks/647">https://www.illustrativemathematics.org/content-standards/6/G/A/1/tasks/647</a>	Finding areas of polygons task
				<a href="https://itunes.apple.com/us/app/explain-everything-interactive/id431493086?mt=8">https://itunes.apple.com/us/app/explain-everything-interactive/id431493086?mt=8</a>	<a href="https://play.google.com/store/apps/details?id=com.explaineverything.explaineverything&amp;hl=en">https://play.google.com/store/apps/details?id=com.explaineverything.explaineverything&amp;hl=en</a>
<b>Volume</b>	In this lesson, you will determine the volume of right rectangular prisms with fractional edge lengths.	<b>LEARN</b> how to find volume of a rectangular prism with fractional edge lengths.		<a href="https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-geometry-topic/cc-6th-volume-with-fractions/v/volume-of-a-rectangular-prism-with-fractions">https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-geometry-topic/cc-6th-volume-with-fractions/v/volume-of-a-rectangular-prism-with-fractions</a>	
		<b>PRACTICE</b> finding the volume of rectangular prisms with fractional edges.		<a href="https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-geometry-topic/cc-6th-volume-with-fractions/e/volume-with-fractions">https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-geometry-topic/cc-6th-volume-with-fractions/e/volume-with-fractions</a>	
		<b>SOLVE</b> a word problem involving volume of a rectangular prism.		<a href="https://www.illustrativemathematics.org/content-standards/6/G/A/2/tasks/657">https://www.illustrativemathematics.org/content-standards/6/G/A/2/tasks/657</a>	Banana bread task
				<a href="https://itunes.apple.com/us/app/explain-everything-interactive/id431493086?mt=8">https://itunes.apple.com/us/app/explain-everything-interactive/id431493086?mt=8</a>	<a href="https://play.google.com/store/apps/details?id=com.explaineverything.explaineverything&amp;hl=en">https://play.google.com/store/apps/details?id=com.explaineverything.explaineverything&amp;hl=en</a>
		<b>SOLVE</b> a word problem involving volume of a rectangular prism.		<a href="https://www.illustrativemathematics.org/content-standards/6/G/A/2/tasks/535">https://www.illustrativemathematics.org/content-standards/6/G/A/2/tasks/535</a>	computing volume compression 2 task
				<a href="https://itunes.apple.com/us/app/explain-everything-interactive/id431493086?mt=8">https://itunes.apple.com/us/app/explain-everything-interactive/id431493086?mt=8</a>	<a href="https://play.google.com/store/apps/details?id=com.explaineverything.explaineverything&amp;hl=en">https://play.google.com/store/apps/details?id=com.explaineverything.explaineverything&amp;hl=en</a>
<b>Coordinate Plane</b>	In this lesson, you will use the coordinates to find side lengths and area of the polygon (limited to triangles and special quadrilaterals).	<b>LEARN</b> learn how to draw polygons by using given coordinates as vertices.		<a href="https://www.khanacademy.org/math/basic-geo/basic-geo-coord-plane/polygons-in-the-coordinate-plane/v/constructing-polygon-on-coordinate-plane-example">https://www.khanacademy.org/math/basic-geo/basic-geo-coord-plane/polygons-in-the-coordinate-plane/v/constructing-polygon-on-coordinate-plane-example</a>	
		<b>PRACTICE</b> drawing polygons on a coordinate plane.		<a href="https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-geometry-topic/cc-6th-polygons-in-the-coordinate-plane/e/drawing-polygons">https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-geometry-topic/cc-6th-polygons-in-the-coordinate-plane/e/drawing-polygons</a>	
		<b>LEARN</b> how to find perimeter and area by finding the length of sides by comparing coordinates.		<a href="http://learnzillion.com/lessons/1066-find-perimeter-and-area-by-finding-the-length-of-sides-by-comparing-coordinates">http://learnzillion.com/lessons/1066-find-perimeter-and-area-by-finding-the-length-of-sides-by-comparing-coordinates</a>	

		<b>PRACTICE</b> finding the distances in the coordinate plane.		<a href="https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-geometry-topic/cc-6th-coordinate-plane/e/coordinate-plane-word-problems">https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-geometry-topic/cc-6th-coordinate-plane/e/coordinate-plane-word-problems</a>	
		<b>PRACTICE</b> finding the area of figures in the coordinate plane. Graph the figure using the Geogebra app and calculate the area. Take a screenshot of each figure and it's area.		<a href="https://www.illustrativemathematics.org/content-standards/6/G/A/1/tasks/1188">https://www.illustrativemathematics.org/content-standards/6/G/A/1/tasks/1188</a>	polygons on the coordinate plane task
				<a href="https://itunes.apple.com/us/app/geogebra/id687678494?mt=8">https://itunes.apple.com/us/app/geogebra/id687678494?mt=8</a>	<a href="https://www.geogebra.org">https://www.geogebra.org</a>
<b>Three-Dimensional Figures</b>	In this lesson, you will represent three-dimensional figures using nets made up of rectangles and triangles.	LEARN how to represent 3-D figures with nets.		<a href="http://learnzillion.com/lessons/195-represent-3d-figures-with-nets">http://learnzillion.com/lessons/195-represent-3d-figures-with-nets</a>	
		<b>PRACTICE</b> determining what shape a net will create.		<a href="http://www.mathgames.com/skill/6.23-nets-of-3-dimensional-figures">http://www.mathgames.com/skill/6.23-nets-of-3-dimensional-figures</a>	
		<b>PRACTICE</b> determining what shape a net will create.		<a href="http://www.ixl.com/math/grade-6/nets-of-3-dimensional-figures">http://www.ixl.com/math/grade-6/nets-of-3-dimensional-figures</a>	
		<b>SOLVE</b> a task involving prisms and nets.		<a href="https://www.illustrativemathematics.org/content-standards/6/G/A/4/tasks/1985">https://www.illustrativemathematics.org/content-standards/6/G/A/4/tasks/1985</a>	Nets for pyramids and prisms task
				<a href="https://itunes.apple.com/us/app/color-tiles-manipulative/id656246736?mt=8">https://itunes.apple.com/us/app/color-tiles-manipulative/id656246736?mt=8</a>	<a href="https://www.mathlearningcenter.org/web-apps/number-pieces/">https://www.mathlearningcenter.org/web-apps/number-pieces/</a>
<b>Surface Area</b>	In this lesson, you will determine the surface area of triangular and rectangular prisms (including cubes). Note that formulas will be provided.	LEARN how to find the surface area of a rectangular prism.		<a href="https://learnzillion.com/lessons/191-find-the-surface-area-of-a-rectangular-prism">https://learnzillion.com/lessons/191-find-the-surface-area-of-a-rectangular-prism</a>	
		<b>DETERMINE</b> the surface area <i>only</i> of each rectangular prism by filling it with cubes, rows, or layers.		<a href="http://illuminations.nctm.org/Activity.aspx?id=4095">http://illuminations.nctm.org/Activity.aspx?id=4095</a>	
		<b>PRACTICE</b> calculating the surface area and volume.		<a href="http://www.shodor.org/interactivate/activities/SurfaceAreaAndVolume/">http://www.shodor.org/interactivate/activities/SurfaceAreaAndVolume/</a>	excellent way to practice and check answers
		LEARN how to solve real-world problems with surface area.		<a href="https://learnzillion.com/lessons/1226-solve-realworld-problems-with-surface-area">https://learnzillion.com/lessons/1226-solve-realworld-problems-with-surface-area</a>	
		<b>PRACTICE</b> calculating surface area in a real world context.		<a href="https://www.illustrativemathematics.org/content-standards/6/G/A/tasks/135">https://www.illustrativemathematics.org/content-standards/6/G/A/tasks/135</a>	Painting a barn task

		<b>LEARN</b> how to find the surface area of a triangular prism in a real world context.		<a href="http://learnzillion.com/lessons/194-find-the-surface-area-of-a-triangular-prism-in-context">http://learnzillion.com/lessons/194-find-the-surface-area-of-a-triangular-prism-in-context</a>	
		<b>PRACTICE</b> finding surface area of 3D shapes.		<a href="https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-geometry-topic/cc-6th-surface-area/e/surface-areas">https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-geometry-topic/cc-6th-surface-area/e/surface-areas</a>	

Topic and Title	Message	Assignment/Call to Action	Content Directions	Content URL or Location	Alternative to IOS or Notes
<b>Module 6: Statistics</b>	In Module 6, students develop an understanding of statistical variability and apply that understanding as they summarize, describe, and display distributions. In particular, careful attention is given to measure of center and variability.				
	<b>Module 1 Focus Standard(s):</b> CC.2.4.6.B.1 - Demonstrate an understanding of statistical variability by displaying, analyzing, and summarizing distributions.				
	<b>Module 1 Objective(s):</b> 1. Display numerical data in plots on a number line, including dot plots, histograms, and box-and-whisker plots. 2. Determine quantitative measures of center (e.g., median, mean, and/or mode) and variability (e.g., range, interquartile range, and/or mean absolute deviation). 3. Describe any overall pattern and any deviations from the overall pattern with reference to the context in which the data were gathered. 4. Relate the choice of measures of center and variability to the shape of the data distribution and the context in which the data were gathered.				
		<b>ACCESS</b> Module 6 Mathematics Instructional Framework		<a href="http://www.pdesas.org/CMap/CMap/DefaultCmap/17177">http://www.pdesas.org/CMap/CMap/DefaultCmap/17177</a>	
<b>Data Display</b>	In this lesson, you will display numerical data in plots on a number line, including dot plots, histograms, and box-and-whisker plots.	<b>LEARN</b> about histograms.		<a href="https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-data-statistics/histograms/v/histograms-intro">https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-data-statistics/histograms/v/histograms-intro</a>	
		<b>PRACTICE</b> creating histograms.		<a href="https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-data-statistics/creating-histograms/e/creating-histograms">https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-data-statistics/creating-histograms/e/creating-histograms</a>	
		<b>WATCH</b> the lesson videos and <b>READ</b> the lesson narrative to learn about box and whisker plots; <b>PRACTICE</b> what you learned by answering the lesson questions about box and whisker plots.	Click on the red Practice button to try out your skills after you watch the video.	<a href="http://www.ck12.org/statistics/Box-and-Whisker-Plots/">http://www.ck12.org/statistics/Box-and-Whisker-Plots/</a>	
		LEARN more about box-and-whisker plots.		<a href="https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-data-statistics/cc-6th-box-whisker-plots/v/reading-box-and-whisker-plots">https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-data-statistics/cc-6th-box-whisker-plots/v/reading-box-and-whisker-plots</a>	
		<b>PRACTICE</b> interpreting box and whisker plots.		<a href="http://www.ixl.com/math/grade-7/interpret-box-and-whisker-plots">http://www.ixl.com/math/grade-7/interpret-box-and-whisker-plots</a>	
		<b>PRACTICE</b> interpreting box and whisker plots.		<a href="https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-data-statistics/cc-6th-box-whisker-plots/e/analyzing-data-with-box-plots">https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-data-statistics/cc-6th-box-whisker-plots/e/analyzing-data-with-box-plots</a>	
		LEARN how to construct box-and-whisker plots.		<a href="https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-data-statistics/cc-6th-box-whisker-plots/v/constructing-a-box-and-whisker-plot">https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-data-statistics/cc-6th-box-whisker-plots/v/constructing-a-box-and-whisker-plot</a>	
		<b>PRACTICE</b> constructing a box and whisker plot.		<a href="https://www.brainiaccamp.com/lessons/box-and-whisker-plots/problems.php">https://www.brainiaccamp.com/lessons/box-and-whisker-plots/problems.php</a>	

		<b>CREATE</b> a box and whisker plot within the Explain Everything app.	Demonstrate your solutions to Part a only.	<a href="https://www.illustrativemathematics.org/content-standards/6/SP/B/4/tasks/2047">https://www.illustrativemathematics.org/content-standards/6/SP/B/4/tasks/2047</a>	Comparing test scores task
				<a href="https://itunes.apple.com/us/app/explain-everything-interactive/id431493086?mt=8">https://itunes.apple.com/us/app/explain-everything-interactive/id431493086?mt=8</a>	<a href="https://play.google.com/store/apps/details?id=com.explaineverything.explaineverything&amp;hl=en">https://play.google.com/store/apps/details?id=com.explaineverything.explaineverything&amp;hl=en</a>
<b>Measures of Center</b>	In this lesson, you will determine quantitative measures of center (e.g., median, mean, and/or mode) and variability (e.g., range, interquartile range, and/or mean absolute deviation).	LEARN about finding mean, median, and mode.		<a href="https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-data-statistics/mean-and-median/v/mean-median-and-mode">https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-data-statistics/mean-and-median/v/mean-median-and-mode</a>	
		<b>PRACTICE</b> calculating mean, median, mode, and range.		<a href="http://www.mathgames.com/skill/6.91-calculate-mean-median-mode">http://www.mathgames.com/skill/6.91-calculate-mean-median-mode</a>	
		LEARN about measures of variability.		<a href="https://learnzillion.com/lessons/539-summarize-the-spread-of-data-using-range-and-mean-absolute-deviation">https://learnzillion.com/lessons/539-summarize-the-spread-of-data-using-range-and-mean-absolute-deviation</a>	
		<b>PRACTICE</b> finding the mean absolute deviations.		<a href="https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-data-statistics/cc-6-mad/e/calculating-the-mean-absolute-deviation--mad-">https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-data-statistics/cc-6-mad/e/calculating-the-mean-absolute-deviation--mad-</a>	
		LEARN about choosing the best measure of center and variability.		<a href="http://learnzillion.com/lessons/3800-choose-the-best-measure-of-center-and-variability">http://learnzillion.com/lessons/3800-choose-the-best-measure-of-center-and-variability</a>	
		<b>READ</b> about quartiles and learn how to identify the interquartile range; <b>PRACTICE</b> identifying the interquartile range.	Click on the questions at the bottom of the page to test your skills.	<a href="http://www.mathsisfun.com/data/quartiles.html">http://www.mathsisfun.com/data/quartiles.html</a>	
		<b>SOLVE a real world</b> problem involving measures of center and measures of variance.	Click the red practice button.	<a href="http://www.ck12.org/statistics/Measures-of-Central-Tendency-and-Dispersion/rwa/Medians/">http://www.ck12.org/statistics/Measures-of-Central-Tendency-and-Dispersion/rwa/Medians/</a>	
<b>Data Distribution</b>	In this lesson, you will relate the choice of measures of center and variability to the shape of the data distribution and the context in which the data were gathered.	<b>PRACTICE</b> relating measures of center and variability to the context in which the data were gathered.	Demonstrate and explain your thinking within the Explain Everything app.	<a href="https://www.illustrativemathematics.org/content-standards/6/SP/B/5/tasks/1199">https://www.illustrativemathematics.org/content-standards/6/SP/B/5/tasks/1199</a>	Electoral college task
				<a href="https://itunes.apple.com/us/app/explain-everything-interactive/id431493086?mt=8">https://itunes.apple.com/us/app/explain-everything-interactive/id431493086?mt=8</a>	<a href="https://play.google.com/store/apps/details?id=com.explaineverything.explaineverything&amp;hl=en">https://play.google.com/store/apps/details?id=com.explaineverything.explaineverything&amp;hl=en</a>
		<b>PRACTICE</b> relating measures of center and variability to the context in which the data were gathered.	Demonstrate and explain your thinking within the Explain Everything app.	<a href="https://www.illustrativemathematics.org/content-standards/6/SP/B/5/tasks/2048">https://www.illustrativemathematics.org/content-standards/6/SP/B/5/tasks/2048</a>	Mean and Median task
				<a href="https://itunes.apple.com/us/app/explain-everything-interactive/id431493086?mt=8">https://itunes.apple.com/us/app/explain-everything-interactive/id431493086?mt=8</a>	<a href="https://play.google.com/store/apps/details?id=com.explaineverything.explaineverything&amp;hl=en">https://play.google.com/store/apps/details?id=com.explaineverything.explaineverything&amp;hl=en</a>
<b>Displaying Data</b>	In this lesson, you will describe any overall pattern and any deviations from the overall pattern with reference to the context in which the data were gathered.	<b>LEARN</b> about the shapes of distributions.		<a href="https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-data-statistics/cc-6-shape-of-data/v/shapes-of-distributions">https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-data-statistics/cc-6-shape-of-data/v/shapes-of-distributions</a>	
		<b>PRACTICE</b> describing the shapes of a data set.		<a href="https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-data-statistics/cc-6-shape-of-data/e/shape-of-distributions">https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-data-statistics/cc-6-shape-of-data/e/shape-of-distributions</a>	

		<b>PRACTICE</b> analyzing the shape of a data set.		<a href="https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-data-statistics/cc-6-shape-of-data/e/clusters-gaps-peaks-and-outliers">https://www.khanacademy.org/math/cc-sixth-grade-math/cc-6th-data-statistics/cc-6-shape-of-data/e/clusters-gaps-peaks-and-outliers</a>

CK-12 Middle School Math Grade 6 Resources	<i>CK - 12 Middle School Math Volume 1</i> includes Number Sense & Variable Expressions, Statistics & Measurement, Addition & Subtraction of Decimals, Multiplication & Division of decimals, Number Patterns & Fractions, and Addition & Subtraction of Fractions.	REVIEW and USE the resources in CK-12 Middle School Math Grade 6 Vol. 1 to enhance instruction.	<a href="https://itunes.apple.com/us/book/ck-12-middle-school-math-grade/id518204889?mt=11">https://itunes.apple.com/us/book/ck-12-middle-school-math-grade/id518204889?mt=11</a>	
	<i>CK - 12 Middle School Math Volume 2</i> covers the fundamentals of fractions, decimals, and geometry. Also explored are units of measurement, graphing concepts, and strategies.			<a href="https://itunes.apple.com/us/book/ck-12-middle-school-math-grade/id518232412?mt=11">https://itunes.apple.com/us/book/ck-12-middle-school-math-grade/id518232412?mt=11</a>
For use with module 4	PRACTICE using expressions and equations.		<a href="http://pdesas.org/module/content/resources/6159/view.ashx">http://pdesas.org/module/content/resources/6159/view.ashx</a>	
For use with module 4	PRACTICE writing algebraic equations to represent real-world scenarios (one-step).		<a href="http://cc.betterlesson.com/lesson/543969/writing-algebraic-equations-to-represent-real-world-scenarios-one-step">http://cc.betterlesson.com/lesson/543969/writing-algebraic-equations-to-represent-real-world-scenarios-one-step</a>	
For use with module 4	PRACTICE writing one step equations.		<a href="http://betterlesson.com/lesson/resource/2549570/tab-and-inm-pdf">http://betterlesson.com/lesson/resource/2549570/tab-and-inm-pdf</a>	
For use with module 4	REVIEW the steps for writing equations.		<a href="http://cc.betterlesson.com/lesson/resource/2549572/visual-anchor-pdf">http://cc.betterlesson.com/lesson/resource/2549572/visual-anchor-pdf</a>	
For use with module 4	PRACTICE writing algebraic equations.		<a href="http://cc.betterlesson.com/lesson/resource/2549569/partner-practice-pdf">http://cc.betterlesson.com/lesson/resource/2549569/partner-practice-pdf</a>	
For use with module 4	PRACTICE writing equations.		<a href="http://betterlesson.com/lesson/resource/2549638/independent-practice-pdf">http://betterlesson.com/lesson/resource/2549638/independent-practice-pdf</a>	
For use with module 5	PRACTICE developing the area formula for a triangle.		<a href="http://illuminations.nctm.org/Lesson.aspx?id=1874">http://illuminations.nctm.org/Lesson.aspx?id=1874</a>	

**Mathematics Grade 6  
Teacher Resources**

For use with module 5	PRACTICE discovering the area formula for trapezoids.		<a href="http://illuminations.nctm.org/Lesson.aspx?id=1893">http://illuminations.nctm.org/Lesson.aspx?id=1893</a>	
For use with module 5	DEMONSTRATE with the student task, the ability to determine area of an irregular figure on a coordinate plane.		<a href="http://illuminations.nctm.org/lesson.aspx?id=1902">http://illuminations.nctm.org/lesson.aspx?id=1902</a>	
For use with module 5	PRACTICE using nets to understand 3-D figures.		<a href="https://illuminations.nctm.org/Activity.aspx?id=3521">https://illuminations.nctm.org/Activity.aspx?id=3521</a>
